

Top Dead Center is Tuscaloosa's newest rock band showcasing a 4-piece female fronted high-energy show utilizing cover songs as well as originals. The musical core of the group is versatile allowing their shows to encompass many genres including rock, metal, alternative, classic rock, & sometimes even country. TDC performs with the highest quality musical equipment delivering a clear and energetic show. Danielle (Dr. D), lead vocalist and front woman, draws attention everywhere she goes. Her unbelievable vocal ability and exceptional rocking energy allows for a wild show every time. Not only does she sing, she rides a 1973 Harley Davidson Shovelhead and holds a Bachelor and Master's degree in Business. Bassist, Steve Wallace is an accomplished musician who brings his free spirit energy to the group and adds a rich fullness with his vocals. Mike O'Handley, on lead guitar, adds an edge that is often overlooked. He is a true craftsman and his "synth" work and attention to detail helps drive the group towards musical perfection, which is not always present in a cover band. TDC guarantees to NOT be the same boring all guy band (who all look the same) playing the same boring music... If you want something different, with hot-female vocals that can handle ALL your favorite songs then Top Dead Center is going to ROCK IT for you!

"We believe in being professional onstage as well as offstage... well beyond expectations."
